

REMARKS

Claims 1-44 remain pending in the current Application. Claim 41 has been amended. Applicants submit that the amendments do not add new matter to the current Application. All the amendments herein have been made in order to clarify the claims and not for prior art reasons. Applicants also submit that (1) no amendment made was related to the statutory requirements of patentability unless expressly stated herein, and (2) no amendment made was for the purpose of narrowing the scope of any claim, unless Applicants have argued herein that such amendment was made to distinguish over a particular reference or combination of references.

With respect to the Oath/Declaration, the Examiner indicates that the oath or declaration is defective because the clause regarding "willful false statements..." has been omitted. However, Applicant respectfully disagrees. As can be seen on page 3 of the Declaration, above the inventor's signature box, this language is clearly present. (Applicants have spoken with Examiner Reginald Bragdon who suggested I simply point out where in the Declaration this language appears in order to respond to this point.)

With respect to the Specification, Applicant has amended herein the Related Applications section to update the patent information, as requested in the office action.

With respect to the Specification, the Examiner indicates that "each of the drawing views must be described separately" as opposed to using groupings such as "Figures 2-11." Applicant respectfully disagrees since this is not a requirement. Applicant spoke with Examiner Reginald Bragdon who also agreed that this is not a requirement and that figures can be grouped as is done in the current Application in the Brief Description of the Drawings section. Therefore, Applicant submits that no changes to the Brief Description of the Drawings section is needed.

With respect to the claim rejections under 35 USC 112, Applicant has amended claim 41 in a manner similar to the amendments previously made to claims 1 and 30 and agreed upon during the telephone interview of June 17, 2008. Therefore, Applicant submits that all claims are allowable, as indicated by the Examiner.

Conclusion

The Applicants respectfully submit that the present application is in condition for allowance, and an early indication of the same is courteously solicited. The Examiner is respectfully requested to contact the undersigned by telephone at the below listed telephone number in order to expedite resolution of any issues and to expedite passage of the present application to issue, if any comments, questions, or suggestions arise in connection with the present application.

If Applicant has overlooked any additional fees, or if any overpayment has been made, the Commissioner is hereby authorized to credit or debit Deposit Account 503079, Freescale Semiconductor, Inc.

Respectfully submitted,
